Comic Book Project

70pts

Directions: You are going to have the opportunity to create a comic book about a famous Greek myth of your choosing. You will have to read a famous Greek myth an d then convert it into a comic book form, using speech bubbles, action, and multiple scenes to capture the major characters and plot of the story!

Here are some websites for you to go to get ideas on which myth you want to turn into a comic:

Consider These Points:

➢ **CREATIVITY** –Use color, drawings (you can paste pictures) and have fun with this project! You can do this like a story, a narrative, an action packed adventure, comedy, drama, you can be serious, sad – so many possibilities! *Show me that you put effort into making this!*

➢ **CONTENT** – Your comic cannot be some made-up or random story! It must be a from an actual Greek myth from ancient times. You must tell the ENTIRE STORY in comic form. You cannot do part of it. All or nothing.

➢ **LENGTH** – You cannot do this project in a single sheet of paper! You need to have an actual comic BOOK – a book has several pages. At a minimum you need to have 5 pages of comics.

Have fun with this!
