

Time Travel Cruise PROJECT

50pts

Description:

By the year 3150 time travel is a reality and it is big business. Huge and powerful Time Travel Corporations have created enormous time-traveling starships to send tourists on cruises back in time. People can see the prehistoric times, the French Revolution or World War I as they were actually happening! Of course the tourists cannot influence history in any way – in fact they are just observers of the past. But it is still a very exciting and educational experience. It is a vacation one never forgets!

You are the head of one of the main Time Travel Agencies in the year 3150. Your task is to design a 12-day long vacation itinerary of a time-cruise to any time stretching back as far as the Ancient Era (back to 4,500 B.C.) to the 21st Century A.D. (2010s). Because of the limits & dangerous instabilities of our phase quantum engines you are bound within certain time parameters. You cannot go back further than 4,500 B.C. and you cannot travel later than the 2010s A.D. To do so would rip a hole in space-time fields and leave you lost forever!

Directions:

Your space-time trip is to be a 12 day jumping cycle. To plan out your trip time-periods you must do the following:

1. You must choose **12 different dates** in time to go to. (No one likes a short vacation. Give the people something they will remember!)
2. You must **choose specific places**, people and/or events that existed, lived or happened at that time.
3. You must **explain a minimum of 5 of the events in writing** for why you chose them! Why are they important? **MINIMUM OF 5 SENTENCES FOR EACH!**
4. You cannot have all 12 jumps be in the same era! **You must have at least one in every time period between the years 4,500 B.C. and 2010s A.D.** (Don't plan out a boring vacation for the tourists! Take them to different places to see different people and events!)
5. **You must draw a time-line** and plot those specific dates and events/people/places on it (The tourists must have a visual of the time jumps they will be going to)
6. You must draw/cut out/paint/paste **pictures that represent at least 5 of the places/people/events you chose!** (Tourists like to “see” the places they are going so they can be sparked with intrigue!)
7. You can use **poster boards or copy paper** to do this project. You can past/glue/staple sheets together!
8. You **must calculate the amount of time between each time jump** (How many years between each jump gives the tourists a sense of excitement of where they are going and how far they are from the present!)

Time Travel Cruise Project Rubric

50pts

Name: _____

Period: _____

	Unacceptable	Needs Improvement	Meets Expectations	Above Expectations
Chronological Accuracy	Dates and spacing not consistent at all. Events not separated. Very hard to read. 0	Dates and spacing somewhat consistent. Events not separated. Hard to read. 10	Dates and spacing mostly consistent. Events separated. Still easy to read. 12	Dates and spacing are consistent. Events separated. Easy to read. 16
Visual Presentation & Appeal	No organization. Shows no time or effort. Disorganized. No images used. 0	Some organization. Shows some time and effort. But there is some clear disorganization. Limited images with little clarity. 10	Overall well organized. Shows good use of time and effort. Good use of images. Images connect to event/time and can be clearly seen. 12	Extremely organized. Many visuals. Shows a lot of time & thought. Visually appealing & engaging. More events have images than required. 15
Event Descriptions	No descriptions of major events. No detail. 0	Some of the events have been described as to why they are significant. Others were not clearly described. 10	The required minimum of 5 events have been described clearly as to their importance. 12	Highly & critically thought out why the events on the timeline are event significant. Went above and beyond by explaining more than 5. 16
Overall Communication & Creativity	Overall there is little to no clarity (visual and written). No creativity. Cannot be clearly understood. 0	Overall some clarity (visual and written). Some creative features. Understood clearly in most parts. Some disorganization. 10	Overall clearly understood. (visually and written). Clear organization, use of images, and good creativity. 14	Excellent clarity & presentation (visually and written). Clearly thought out. Much time spent on it. Great original creativity! 18

Overall Score: _____
